Contact hours/CEUs are offered pending successful completion of Parts 1-3 of this course, including the written exam for each part. Partial credit will not be awarded.

Course Description:

PART 1: Developing a Strategy and Incorporating IM into Practice
Developing a clear vision and understanding of the dynamics of your business can affect your profitability, stress level and effectiveness with clients. Integrating evidence-based interventions like Interactive Metronome (IM) can enhance your outcomes, increase customer satisfaction & and support your therapy practice. This course, the first of 3 presentations focusing on practice management with IM, will help you identify or fine-tune your vision, develop objectives and implement a strategy to create a culture that drives excellence & business success.

PART 2: Building a Successful Practice With IM
This course will build upon the information and concepts covered in part 1, providing practical ideas and strategies to build a successful practice with Interactive Metronome. Dillen, a successful private practitioner with several years of experience, will share ideas for creating a business strategy that will positively impact the effectiveness, outcomes, productivity, culture & profitability of your therapy practice.

PART 3: Practice Management From Good to GREAT
This course will focus on administrative systems and clinical techniques designed to enhance your practice, market share and profitability. Participants will learn how to incorporate IM Home into their practice, including how to bill for IM Home services. Participants will be empowered to think outside of the box in order to establish a highly effective, robust & profitable therapy practice.

Target Audience:
This course welcomes the following professionals:
- Speech and Language Pathologist
- Speech and Language Pathology Assistant
- Audiologist
- Occupational Therapist
- Occupational Therapy Assistant
- Physical Therapist
- Physical Therapy Assistant
- Athletic Trainer
- Licensed Medical, Rehabilitation or Mental Health Professional

Instructor:
Andrew Dillen Hartley, OTR/L graduated from the University of Pretoria, South Africa, school of Occupational Therapy in 1995 and moved to the USA in 1996. He is co-owner of Advanced Therapy Solutions, Inc, an outpatient Physical and Occupational Therapy practice serving clients of all ages in five locations. Mr. Hartley has 14 years of clinical experience and is trained in multiple treatment approaches with both adults and pediatrics. His interests include the treatment of deficits related to stroke, traumatic brain injury, Autism, development disorders, sensory processing disorders, ADHD, ADD and learning disabilities in infants, children and adults. His experience with sensory integration, neuromuscular re-education, brain gym, vision therapy, environmental adaptation, Tai-Chi, yoga and technology based treatment approaches for all ages has served him well as a presenter of certification courses, webinars and professional seminars. Mr. Hartley serves as a clinical advisor for Interactive Metronome and other “Therapy based” companies in research, protocol and practice development areas.

Instructor Financial Disclosure(s): Dillen is an active member of Interactive Metronome’s Clinical Advisory Board, for which he receives an annual honorarium from Interactive Metronome, Inc. He is the author/co-author of numerous courses that focus on the clinical application of Interactive Metronome technology, for which he has received honoraria from Interactive Metronome, Inc. Dillen does not receive royalties or any other form of compensation for the continued publication and use of educational materials he has authored/coauthored. Dillen is also an instructor for Interactive Metronome, for which he receives a fee for teaching each course and reimbursement of travel expenses from Interactive Metronome, Inc. Dillen does not sell or receive compensation for the sale of Interactive Metronome products.

Instructor Nonfinancial Disclosure(s): Dillen is co-owner of Advanced Therapy Solutions where he and his staff incorporate the Interactive Metronome into therapy interventions.
